

Sam-r stage plot (5 Piece Band)

Downstage

I'll be bringing my live rig which includes all the DI boxes I need, as well as a mixer (for our in-ear systems), mic splitters, and a 10 channel fan snake which goes to front of house.

- 1/2: (Stereo) Rhythm Guitar
- 3/4: (Stereo) Backing Tracks
- 5/6: (Stereo) Keys
- 7/8: (Stereo) Lead Guitar
- Mic: (Mono) Lead Vocals
- Bass: (Mono) Bass Guitar

If the drumkit needs to be mic'd up we'll have to bypass my rig and connect it directly to venue's mixer.

P.S. The snake I'm bringing is 7 ft. long. I would need a stage box please if the front of house mixer is farther than that.

Object (Name, Brand)	Effects/Settings	Comments
Drum Kit (Drums, Gretsch)		(If house kit is available, I'll bring the breakables)
Bass (Bass)		(Bass XLR)
